

LUKE ANTHONY SURIBEN

Operations Virtual Assistant

CAREER SUMMARY

Versatile professional with 15+ years of experience in administration, IT, systems development, and business operations. Progressed from Computer Technician to Network Administrator and Computer Programmer, developing and maintaining company-wide systems that improved operational efficiency. Currently manages a custom printing business, overseeing customer service, order management, design, and daily operations while utilizing Canva, Adobe Photoshop, AI tools (ChatGPT and Claude), and n8n automation to streamline workflows. Also trained in Amazon Online Arbitrage with hands-on experience using SellerAmp SAS and Keepa for product research, pricing analysis, ROI evaluation, and sourcing profitable products. Highly organized, detail-oriented, and committed to helping businesses improve productivity and efficiency.
